HOW TO READ YOUR BILL – NEVADA

- 1D BARCODE** - The 1D barcode is your Southwest Gas account number and can be scanned at Bill Payment Kiosks.
- MAILING ADDRESS** - This is the mailing address where we'll send your statement each month. Please help us keep this information current by updating your address whenever it changes.
- SERVICE ADDRESS** - The service address is the location where your gas service is provided.
- AMOUNT DUE** - This is the amount you owe on this bill. You may pay your bill online, via our mobile app, by mail, by phone 24/7 toll free at 877-860-6020 or at any authorized payment location.
- PAST DUE AFTER** - Although your monthly bill is due and payable upon presentation, it becomes past due if not paid by the "Past Due After" date on your bill. A late pay charge may be added to the bill if payment is not received before the next bill is rendered.
- ACCOUNT NUMBER** - This is your account number with Southwest Gas. Please mark all correspondence and payments with this number to ensure your account is properly identified.
- BILLING DATES** - These are the billing dates for your current bill period.
- DATE MAILED** - This is the date your statement is sent to you and is tied to the cycle date for timely and efficient billing periods.
- LOCAL OFFICE** - The local office is a location where you can pay your bill at one of our kiosks. To discuss your account, please call Customer Assistance at 877-860-6020 Monday - Friday 7 a.m. - 6 p.m. PST (excluding holidays). Hearing impaired, use 711.
- CUSTOMER ASSISTANCE** - This section contains the Customer Assistance phone number and TDD (for hearing impaired).
- DAILY AVERAGE USAGE GRAPH** - This section displays your average daily gas usage for the current month, last month, and the same month last year.
- MONTHLY USAGE GRAPH** - This section displays your gas usage over the past year. It's measured by therms used each month.
- MESSAGES** - These messages contain information for you regarding conservation, safety and other important announcements.

14. PREVIOUS BILLING - Here you can view the amount of your last bill, and the payment(s) received toward that amount. The balance forward represents the unpaid portion of last month's balance due.

15. RATE SCHEDULE - The rate schedule represents the gas rate used to calculate your account. You can view Tariffs, Rate Schedules and the Statement of Rates on swgas.com.

16. CURRENT BILLING - Southwest Gas bills customers on a per-therm basis, which includes the amount of energy contained in the gas delivered. The current reading minus the previous reading, multiplied by the billing factor, equals the number of total therms used in the current billing period.

Billing Factor - The billing factor is used to convert the amount of gas into units of heat energy, which are called therms. The calculation ensures all customers are charged equally for the heating value of the gas used.

Total Therms - Total therms refers to the total gas usage for the current month, as shown in the Current Billing section.

17. NEXT METER READ DATE - This is the date your meter will be read for the next billing cycle. Paying your current bill before this date will avoid any potential late payment charges.

18. CYCLE - The cycle represents the billing period used on your account to determine which day your meter is read.

19. CHARGES - This includes charges to your account, such as: Delivery Charge; Gas Cost; Basic Service Charge; REP Rate; IE Rate; and Universal Energy Charge.

Delivery Charge shows how many therms are billed, multiplied by the applicable rate. The delivery charge for customers with installed natural gas air conditioning equipment will have a different rate for therms used for air conditioning and will reflect a seasonal rate change. A separate line item for each rate will be shown for any seasonal rate changes during your billing period.

The **Gas Cost** portion of your bill changes four times each year, on January 1, April 1, July 1 and October 1, to reflect the cost of natural gas purchased by Southwest Gas on behalf of customers. Because all meters are not read on the first of the month, this portion of your bill is prorated to reflect the number of days gas was used at the previous month's rate and the number of days at the current month's rate.

The **Basic Service Charge** is a monthly fee for costs incurred in providing your natural gas service.

The **Renewable Energy Program (REP) Rate** recovers the cost of Southwest Gas' participation in the Solar Thermal Demonstration Program. For more information, visit swgas.com/nvsolar.

The **Infrastructure Expansion (IE) Rate** is established to provide natural gas service to unserved or underserved areas in the state pursuant to Nevada Revised Statutes 704.9925.

Universal Energy Charge is a fee mandated by the State of Nevada to assist eligible households in paying for natural gas and electricity and programs of energy conservation, weatherization and energy efficiency.
