

# FREE METER SHELTER PROGRAM FOR CALIFORNIA

## Protect Natural Gas Meters from Snow and Ice

In areas that receive heavy snowfall, snow and ice sliding from roofs can damage a natural gas meter and associated equipment.

Eligible California customers may qualify for a free snow shelter from Southwest Gas. Snow shelters are installed above natural gas meters to help reduce damage from falling snow and ice.

To request an evaluation for a free snow shelter, call Southwest Gas at **877-860-6020**. A technician will visit your home or business to assess the location. Visit [swgas.com/safety](https://www.swgas.com/safety) for additional information.

### Know the Signs of a Natural Gas Leak:

#### SMELL

A distinct sulfur-like odor, similar to rotten eggs, even if it's faint or momentary.

#### HEAR

A hissing or roaring coming from the ground, aboveground piping, or a natural gas appliance.

#### SEE

Dirt or water blowing into the air, unexplained dead or dying plants or grass, or standing water continuously bubbling.

If you suspect a leak, leave the area immediately and, from a safe place, call **911** and Southwest Gas immediately at **877-860-6020**.
