

APRIL 2022

NEWS TO USE

SOUTHWEST GAS

Clean.
Affordable.
Natural Gas.

APRIL IS NATIONAL SAFE DIGGING MONTH

Keep your community safe and connected by **calling 811** at least two working days before any digging project to have all underground utility-owned lines marked for free.

ABUNDANT. RENEWABLE. HYDROGEN.

Hydrogen (H₂) is a versatile, zero-emissions fuel that can decarbonize critical areas of our economy — like electricity production, transportation and industry. This powerful fuel can also be blended with natural gas and RNG to fuel homes and businesses and store excess renewable energy.

Follow our H₂ innovations at swgas.com/hydrogen.

DID
YOU
KNOW

Indoor air quality is more a function of what's being cooked, rather than the fuel used for cooking.^{1,2}

¹ California Restaurant Association, 2021.

² Always use proper ventilation when cooking.

UNDERGROUND PIPELINES CAN BE LOCATED ANYWHERE

Out of sight shouldn't mean out of mind. Natural gas lines can be buried anywhere.

If you suspect a gas leak, leave the building or area immediately and call **911** and Southwest Gas at **877-860-6020**.

Learn how to recognize a gas leak at swgas.com/safety.
