

APRIL 2023

NEWS TO USE

SOUTHWEST GAS

APRIL IS SAFE DIGGING MONTH!

Keep your community safe and connected by calling **811** at least two working days before any digging project to have all underground utility-owned lines marked for free.

COOK EFFICIENTLY AND SAFELY WITH NATURAL GAS

Natural gas is a preferred source of energy for cooking because it offers many benefits including quick startup, even temperature and reliability during power outages. When cooking with any range, cooktop or oven, whether gas or electric, install an exhaust for proper ventilation to eliminate the normal byproducts of cooking such as steam, smoke, grease and heat.

3 YEARS, ALL THANKS TO YOU!

For the third consecutive year, Southwest Gas ranked #1 in the West by J.D. Power in Customer Satisfaction with Business and Large Residential Natural Gas Utilities. We are honored and humbled by our customers' recognition of our efforts to serve with excellence and look forward to exceeding our customers' expectations well into the future.

UNDERGROUND PIPELINES CAN BE LOCATED ANYWHERE.

Out of sight shouldn't mean out of mind. Natural gas lines can be buried anywhere. If you suspect a gas leak, leave the building or area immediately and call **911** and Southwest Gas at **877-860-6020**.

Learn how to recognize a gas leak at swgas.com/safety.
