REBATE APPLICATION DETAILS

Rebates Available
As a Southwest Gas customer, you may be eligible for rebates on Energy Efficiency upgrades. Take advantage of available rebates on qualifying equipment purchases and installations. Applications are processed on a first-come, first-served basis and funding is limited, so be sure to submit your rebate application promptly after installation to maximize your savings.

Save Energy & Protect the Environment
Upgrading to high-efficiency equipment can reduce energy consumption by up to 30%, helping you lower utility bills while conserving valuable resources. Replacing older systems with energy-efficient models is a smart investment for both your budget and the environment. These incentives make it easier and more affordable to improve efficiency, reduce energy use, and enjoy lasting savings.

NEVADA ENERGY EFFICIENCY REBATE PROGRAM

Take advantage of our rebates to save **money** and **energy** while supporting the **environment.**
