

The main ingredient to your perfect meal.

NEWS TO USE

April 2013

It's no secret that professional chefs prefer cooking with natural gas. But did you know that three out of four home chefs like you, prefer to create tasty meals with efficient, clean burning, affordable natural gas, too?*

If you're already cooking with gas, thank you! Continue to enjoy the value, convenience, and efficiency with each new meal. Outdoors, natural gas grilling offers all the advantages of cooking in the kitchen, plus there are no heavy propane tanks to refill and no messy charcoal to clean up afterwards.

If you're not enjoying the benefits of natural gas cooking, here's what you're missing: precise temperature control, instant on and off, and even heat. And, since natural gas cooking costs half as much as using a similar electric range, it's easier on your budget. Make natural gas cooking the main ingredient for your perfect meal.

**Energy Solutions Center*

Enjoy these energy saving cooking tips:

- Select pots and pans that fit your burners
- Cover pots when cooking
- Pre-heat oven only when necessary
- Avoid opening the oven door while in use

National Volunteer Week

April 21-27, 2013

Join us in celebrating National Volunteer Week by taking the step to help others build a better and greener future for our communities. We're proud of our employee volunteers who feed the hungry, help build energy-efficient homes for senior citizens, and renovate parks and playgrounds for our children.

Because volunteering is an integral part of the Southwest Gas business philosophy, we'd like to take this opportunity to salute all of our employee volunteers who continually take an active role in shaping the best possible future for our communities.

Celebrate
Earth Day!
April 22

For more than 40 years, Earth day has inspired awareness of and appreciation for the earth's environment. With this year's global theme, "The Face of Climate Change," Southwesters from the mountains to the desert can take a moment to discover exciting ways to go green, save energy, and reduce environmental footprints. Preserve our local, natural beauty. Be the face of change.

Save time. Save trees.

Signing up for **Paperless Billing** through MyAccount not only saves you money and time, it also saves our trees. If all U.S. households viewed and paid bills online, it would save approximately 2.3 million tons of wood, or 16.5 million trees each year.
