

Save Money with Natural Gas

NEWS TO USE

February 2012

Save when you dry...

By using clean and efficient natural gas, you can dry two loads of laundry, for the same cost as drying one load in an electric dryer. Faster heat up and shorter drying times extend the life of your fabrics, too. Be gentler on your laundry and on the environment with a natural gas clothes dryer.

Save when you fry...

In the kitchen, cook up some savings by using a natural gas range, oven or cooktop. Cooking with a natural gas appliance costs about half as much as cooking on a similar electric model. Plus, with precise heat control, you can whip up the perfect meal every time.

Whether it's laundry day or dinner time, turn to affordable, clean and abundant natural gas – it's greener than you think.

Visit www.swgasliving.com for more information about natural gas appliances.

Also, to find out if your home has natural gas piping available for a range or dryer, call our Energy Specialists at **1-800-654-2765**

Households with Medically Fragile Individuals

Did you know that if you or someone in your household has a qualifying medical condition, you are eligible for priority natural gas service restoration if there is an interruption in your service due to an outage?

To ensure your household is on this priority list, here's what to do:

- Visit www.swgas.com and click on "Residential-Special Programs" or call us toll-free at **1-877-860-6020** to obtain a Certification of Health and/or Disability Form;
- Have a licensed physician, public health official or social worker complete and sign the form; and,
- Return it to Southwest Gas.

Save time. Save trees.

There's no time like the present to sign up for Paperless Billing through MyAccount. Going paperless not only saves you money and time, it also saves our trees.

If all U.S. households viewed and paid bills online, it would save approximately 2.3 million tons of wood, or 16.5 million trees each year.

Visit www.swgas.com to sign up today!
